Introduction

In keeping with our district vision to “serve the evolving educational needs of the individual in partnership with the community”, the Celina City School District is dedicated to making educational decisions that will enable all students to learn and progress as their abilities permit.

Celina City Schools identify gifted students in kindergarten through grade 12, according to the criteria set by the State of Ohio, and as outlined below.

DEFINITION

“Gifted” means students who perform or show potential for performing at remarkably high levels of accomplishment when compared to others of their age, experience or environment and who are identified under division (A), (B), (C), or (D) of section 3324.03 of the Ohio Revised Code.

DISTRICT IDENTIFICATION PLAN

The district accepts referrals, screens and identifies, or screens and reassesses students who perform or show potential for performing at high levels of accomplishment in the areas of superior cognitive ability, specific academic ability, creative thinking ability, and/or visual and/or performing arts. The district must follow policy and procedures established in Ohio Administrative Code 3301-51-15. These rules specify that assessment instruments must come from the list approved by the Ohio Department of Education.

Assessments

➤ Superior Cognitive Ability

Assessments the district administers that provide for superior cognitive identification:

Cognitive Abilities Test (CogAt) Form 7 VQN Composite	Identification = 127 (K-1); 128 (2-12) Screening = 126 (K-1); 127 (2-12)

Identification Process

The district shall provide at least two opportunities each year for assessment in the case of children requesting assessment or recommended for assessment by teachers, parents or other children. The district ensures there are ample and appropriate scheduling procedures for assessments and reassessments using:

Type of Assessment	Content Area(s)	Grade Level(s)
• Whole Grade Test	IQ	2
• Individually-administered tests	IQ, Math, Reading, Science, and Social Studies	K-12, by referral
• Audition, performance	Music, Dance, Drama	K-12, by referral

Referrals

Children may be referred for gifted screening in writing at any time by a parent/guardian, a teacher, the child (self-referral), a peer or others (e.g., psychologist, community members, principal, gifted coordinator, etc.) Referral forms are available on the Celina City or ESC website of from the district gifted services personnel. **Students referred with permission on file by September 30 will be tested between October 1 and October 31. Students referred with permission on file by February 28 will be tested between March 1 and March 31. Students referred after March 1 will be tested the following fall.** Completed referral forms should be submitted to the district gifted service personnel.

Upon receipt of a referral, the district will follow the process as outlined in this packet. Signed parent permission is required prior to any individually-administered assessments. Parents will be notified of the results of screening or assessment and identification within 30 days of the receipt of the results.

Screening

Students in grade 2 will be screened in math and reading using STAR math and reading. Students who score in the 80th percentile two times will be referred for assessment for gifted identification.

The district ensures equal access to screening and further assessments of district children, including culturally or linguistically diverse children, children from low socioeconomic backgrounds, children with disabilities and children for whom English is a second language.

Identification

When the screening assessment has been completed, if the data obtained is from an approved identification instrument and the score meets cut-off scores specified in department of education guidance, the identification decision is made and the student’s educational needs are determined. **Identification scores remain in effect for the remainder of the student’s K-12 school experience.**

Reassessment

When the screening assessment has been completed, if the data is from an approved screening instrument or from an identification instrument on which the student is within a district-specified range below the identification score, re-assessment for possible identification occurs.

Out of District Scores

The district accepts scores, completed within the preceding 24 months on assessment instruments approved for use by the Ohio Department of Education, provided by other schools and/or trained personnel outside the school district.

Transfer

The district ensures that any child transferring into the district will be assessed within 90 days of the transfer at the request of the parent. Parents shall contract the building principal.

Appeal Procedure

An appeal by the parent is the reconsideration of the result of any part of the identification process which would include: screening procedure or assessment instrument (which results in identification), the scheduling of children for assessment, the placement of a student in any program, and the receipt of services.

Parents should submit a letter to the superintendent or designee outline the nature of the concern. The superintendent or designee will convene a meeting with the parent/guardian, which may include other school personnel. The superintendent or designee will issue a written final decision within 30 days of the appeal. This written notice should include the reason for the decision(s).

DISTRICT SERVICE PLAN

Although Ohio law does not require districts to provide gifted education services, Celina City Schools strives to provide a continuum of services and opportunities to enable students who are identified as gifted to develop their potential. All gifted services that are reported to parents and to the Ohio Department of Education are delivered in accordance with the *Operating Standards for Identifying and Serving Gifted Students*, (OAC Code 3301-51-15). The district ensures equal opportunity for all district students identified as gifted to receive services for which the student meets the criteria. Written criteria for determining eligibility for gifted services are updated annually and shall be provided upon request.

Gifted services offered by the district may change annually depending on available funding, personnel, Ohio Rules and Regulations and differing needs of our gifted students. Contact your child's principal or the district gifted personnel to verify currently available services.

Written Education Plans

Gifted services provided by the district are matched to the student's gifted identification and individual needs, and are guided by a Written Education Plan (WEP), in compliance with the *Operating Standards for Identifying and Serving Gifted Students*. Parents and all educators responsible for providing gifted services to the student shall receive a copy of the WEP, which is prepared in the fall of each year.

Acceleration

Students who are significantly advanced in one or more subject areas may be referred for acceleration. Acceleration options include: early entrance to school, single-subject acceleration, whole-grade acceleration, and early graduation from high school. Referrals must be received at least 60 days prior to the beginning of the school year or semester. Please see the district or ESC website or contact your child's principal or the district gifted services personnel for more information.
